Somalia 2026

Message from Founder and Executive Director Dr. Ron Dieckmann:

"Our team from KidsCareEverywhere (KCE) is presently on the ground in Somalia, where we are engaged in an exciting national project to donate award-winning medical and nursing software to clinicians across the country, primarily for use on mobile phones. This initiative will influence the quality of the health care provided to millions of patients. We are conducting this project in collaboration with the Global Health Alliance, the Ministry of Health and the World Health Organization. What our team has accomplished on the first days in this resource-limited country is truly inspiring. The Blog and images below reveal the enormous energy and good will generated among the clinicians in Somalia by our KCE project. Over this week, we will post daily Blogs of the team's work to share the spirit of the mission."

Report from the front lines in Somalia: Blog #6

October 30, 2026

"Yesterday was happily calm. We spent time curating data from our Post-Training Survey, creating a table with students' responses to aspects of the training. Spoiler alert: responses are generally very positive and will inform our KCE trainings going forward.

In the evening, the whole GHA and KCE team was invited to the Minister of Health's private home for dinner. Food delicious and traditional! Minister Mohamed is genial, bright, and a strong supporter of our KCE trainings and the partnerships we've forged in Garowe.

Our team is planning ongoing collaboration and trainings with the ultimate goal of getting DynaMed and Dynamic Health into every Somali clinician's hands and elevating the health infrastructure here. These are dynamic, smart, and committed partners."
